WWW.KINGSBALL.ORG

### Perspective youth sports supporter,

One of the best ways to promote your business is through youth activities which are in an intergral part of the local and greater Dallas community. Through sponsorship of youth athletics you are not only helping to support and provide a service to your surrounding community, but it has been well documented that businesses who actively support community youth programs are more likely to be viewed in a positive manner by the enitre community itself. Although there are several ways to demonstrate support for youth sports programs, financial support is by far one of the most important. The current economic situation and costs associated with running sports programs that are competitive and effective make funding challenging. Programs are becoming fewer for our youth.

**KINGS BALL** is a youth basketball program here in Dallas, TX, which provides services for children ages 6-14. Kings Ball is a registered non-profit organization in the state of Texas who provides children within the community an outlet to learn values of sportsmanship, teamwork, physical fitness and conditioning, disicipline, determination, commitment, and community pride. **KINGS BALL** offers (4) age levels of competitive basketball starting with an 6 years old and under team and a 12 years old and under team. Each team has a minimum of 10 players and we continue to grow our roster due to high interest in our program.

**KINGS BALL** relies on fundraisers and contributions from the community to maintain a competitive, comparable, and effective youth sports program.

We have established a sponsorship list below and would sincerely appreciate your support to **KINGS BALL**, the community, and our future leaders on and off the court.
